

SNS CEC #17 KA - Mercury Heat Exchanger Double-Wall Design

Number and listing from 102030100-ES0009

CRS # 00035105

System Engineer Name	Badge
----------------------	-------

Acknowledgement of Completion

Through open discussion and oral examination, I have confirmed a level of understanding of the following areas of knowledge to determine that the person named on this record may satisfactorily execute responsibilities of the "System Engineer" role for the identified Credited Engineering Control (CEC).

- Description of assigned CEC
- Facility Safety Analysis Document (FSAD) and the Accelerator Safety Envelope (ASE) requirements related to assigned CEC
- Safety function of assigned CEC and related administrative controls
- Role and responsibilities of "System Engineer" having assigned SNS CECs, as described by the current "SNS Credited Engineered Control System Engineers List." (SNS 102030100-ES0009)

Signature, SNS Accelerator Safety Program Manager	Date
---	------

Following completion of required reading and self-study of applicable sections of related FSAD and the ASE, I have resolved any questions or concerns that I have regarding my assigned CEC and my responsibilities as "System Engineer" through discussion with the Accelerator Safety Program Manager or designee.
